SoMachine Basic  
for M221

#### Embedded communication

- Ethernet, RS 232/RS 485 serial link, USB mini-B programming port

#### Embedded functions

- Analog (PID control)
- Counting: Up to 4 high speed counters (HSC), 100 kHz frequency
- Position control (PTO), with trapezoidal and S-curve profile able to control either:
  - 2 or 4 axes in pulse direction (P/D) mode
  - 1 or 2 axes in CW/CCW mode
  - Pulse width modulation (PWM), Pulse generator (PLS), Frequency generator (FREQGEN)

#### Processing power

- Execution speed: 0.2 ms/Boolean instruction
- Program: 10 Boolean Kinstructions
- Number of words: 8,000. Number of internal bits: 1,024
- RAM: 640 K (256 K for internal variables and 256 K for application and client data)
- Flash memory: 2 MB (including 256 K for backing up the client application and data in the event of a power outage)

Modicon M221

## Modicon M221

For hardwired architectures. Achieve benchmark performance while increasing profitability with the Modicon M221 PLC, the most complete controller in the new Modicon range

## SoMachine Basic software

SoMachine Basic programming software is a user-friendly tool designed to develop projects on Modicon M221 or Modicon M221 Book logic controllers. It can convert applications created on TwidoSuite and TwidoSoft.

#### Feature:

- User-friendly and Easy to use with 4 step:  
Select model, Programming, Download and Commissioning
- Four programming language:  
Somachine Basic can be programmed in
- Instruction List (IL) language
- Ladder (LD) language
- Grafcel graphic language
- Structured Text (ST) operations

#### Other function:

- With high speed counter, Data logging , PID, Timer & Counter
- Convert from Twido to Modicon M221 and other

#### Free software programming :

- Can download free on Schneider Electric website

#### A Classic PLC Reborn

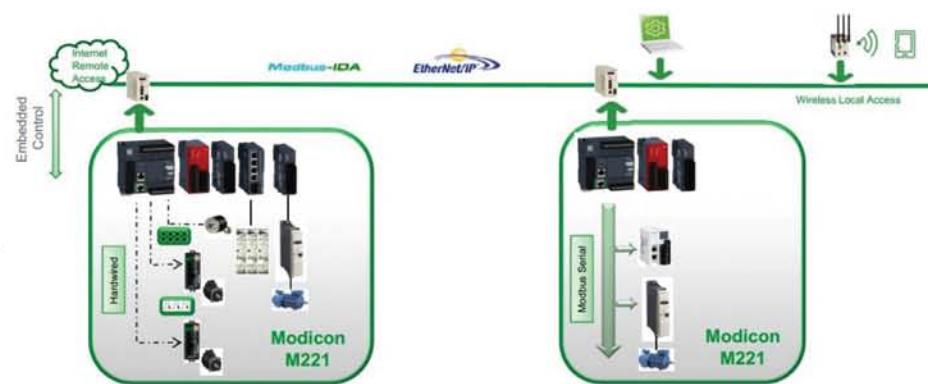

Modicon Twido PLC

90ms / Instruction	Processing Speed	300ms / Instruction	4.5X Faster
3K	Max Instructions	10K	3X More
NO	Ethernet on all	YES	
YES	Easy Software	YES	
\$5	Price	\$5

## SoMachine for M241

### Key features

- Removable screw terminal blocks, supplied with the controllers.
- A Run/Stop switch is available on each M241 controller.
- A SD memory card (Secure Digital card) is available on each M241
- A slot integrated in each M241 controller can take up to 2 cartridges of the following
- Analog input or output expansion cartridges
- Application cartridges: hoisting or packaging

### Embedded communication

- have up to 5 integrated communication ports: Ethernet with embedded Web server function, CANopen (master), 2 serial links, Programming port

### Embedded functions

- PID control
- 8 high-speed counter (HSC) inputs, 200 kHz frequency
- 4 position control outputs for P/D, CW and CCW pulse train (PTO) with trapezoidal profile and
- S curve, 100 kHz frequency/pulse width modulation (PWM), frequency generator (FG)

**Modicon M241**

### Processing power

- Execution speed: 22 ns/boolean instruction
- Program: 128 K boolean instructions
- DualCore CPU
- RAM: 64 MB
- Flash memory: 128 MB

## Modicon M241

logic controllers are designed for high-performance compact Embedded Ethernet port offering FTP and web server services, meaning they can easily be integrated in control system architectures for remotemonitoring and maintenance of machines by means of applications forsmartphones, tablets and PCs.

## SoMachine for M251

### Main functions

- Modicon M251 controllers have no embedded I/O but can be combined with Modicon TM3 expansion modules.
- M251 controller has a Run/Stop switch.
- A slot for an industrial SD memory card (Secure Digital card) is available on every M251 controller.

### Embedded communication

- M251 logic controllers incorporate up to 5 communication ports:
  - "Ethernet 1" network with 2 RJ 45 ports connected by an internal switch, this network being mainly for communication between machines or to your factory network
  - "Ethernet 2" network with an RJ 45 port, optimized for connecting field devices (variable speed drives, distributed I/O, etc.) by means of the Ethernet I/O Scanner service (Industrial Ethernet Manager). This port can also be connected to a factory network.
- CANopen port (CANopen master/SAE J1939 Request Manager) for connecting field devices (variable speed drives, distributed I/O, etc.)
- serial link port
- programming port

**Modicon M251**

### Processing power

- Execution speed: 22 ns/Boolean instructions
- Program: 128 Boolean Instructions
- DualCore processor
- RAM: 64 MB Flash memory: 128 MB
- Program size: 10 MB for application and symbols

## Modicon M251

Controllers offer an innovative, high-performance solution in the field of modular machines and distributed architectures. Embedded Ethernet port offering FTP Client/Server, Web Server, SQL Client, SNMP Client/Server V1 and V2, OPC UA Server, SNTP Client and DNS Client services

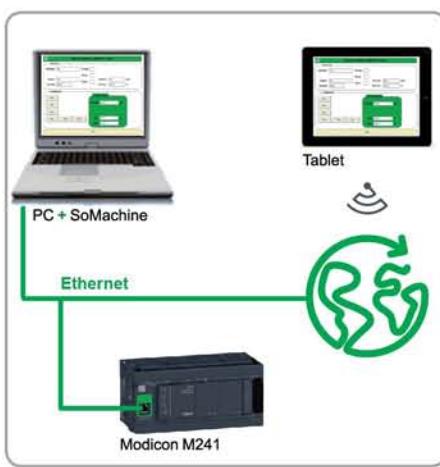

SoMachine software platform

## SoMachine software

### Simplify machine programming and commissioning

SoMachine is the machine builder's solution software for developing, configuring, and commissioning the entire machine in a single software environment, including logic, motion control, HMI, and related network automation functions

Web visualization

### Feature

- One software package, One project file, One connection and One download operation
- With Six programming language , Commissioning and network feature that you can programming all PLC in same network with 1 plug-in only
  - IL (Instruction List)
  - LD (Ladder Diagram)
  - SFC (Sequential Function Chart)
  - ST (Structured Text)
  - FBD (Function Block Diagram)
  - CFC (Continuous Function Chart)
- Support IEC 6131
- With build-in Web server (For M241 and M251) that can control process via web browser.

### The Flexible and Scalable Control Platforms offer includes:

- Controllers:
  - Modicon logic controllers: M238, M241, M251, M258
  - Modicon motion controllers: LMC058, LMC078
  - HMI controllers: Magelis SCU, XBTGC, XBTGT/GK
  - Drive controller: Altivar IMC
- I/O modules: Modicon TM2, Modicon TM3, Modicon TM5, and Modicon TM7 offers
- HMIs:
  - Magelis™ STO/STU Small Panels
  - Magelis™ GH/GK/GT Advanced Panels
  - Magelis™ GTO Optimum Advanced Panels
  - Magelis™ GTU Universal Panels

# Miniature Circuit Breakers

## ACTI 9

**iC60N circuit breakers are multi-standard circuit breakers which combine the following functions:**

- Circuit protection against short-circuit currents,
- Circuit protection against overload currents,
- Suitable for industrial isolation according to IEC/EN 60947-2, standard.
- Fault tripping indication by a red mechanical indicator in circuit breaker front face.

### iC60N range

1P

4P

2P

3P

Rating (In) 0.5 to 63 A

### C120N range

1P

4P

2P

3P

Rating (In) 80 to 125 A

## Motor Starter

### Enclosed Motor Starters

**TeSys GV2-ME**  
Thermal magnetic motor circuit breakers

### Enclosed Motor Starters

**TeSys GV2**  
Magnetic and thermal magnetic motor circuit breakers up to 15 kW

**TeSys GV3**  
Magnetic and thermal magnetic motor circuit breakers up to 30 kW

## Contactors & Protection Relays

### Contactors & Reversing Contactors

**TeSys D**  
Contactors and reversing contactors up to 75 kW/400V and 250 A/AC1

### Thermal Overload Relays

**TeSys LRD**  
Thermal overload relays up to 75 kW / 400 V

## Interface, Measurement & Control Relays

### Automation Relays

**Zelio Control**  
Measurement and control relays RM4-RM17-RM35

**Zelio Relay**  
Plug-in relays  
Electromechanical and Solid state relays

**Zelio Time**  
Electronics timers,  
Timing relays, to create simple hard-wired logic automated system cycles or to complement industrial programmable controllers.

## Switch Mode Power Supplies

### Phaseo Easy

**ABL2**  
Single phase power supplies 100 V to 240 V from 35 to 350 W

## Control Stations

### Pendant Control

**XAC-A**  
Pendant control stations for Ø 22 mm plastic signaling units

### Plastic Control

**XALD, XALK**  
Plastic control stations and enclosures for Ø 22 mm plastic signaling units (XB5)

## Tower Light

### Modular

**XVM**  
Ø 45 mm pre-wired modular tower light (up to IP54)

### Monolithic

**XVC**  
Ø 100 mm Pre-assembled and pre-cabled tower lights

**XVG**  
Ø 60 mm Pre-assembled/pre-cabled tower lights Variable composition tower lights for customer assembly of up to 4 units

## Pushbuttons Switches Pilot Light

### Harmony

**XB4**  
Ø 22 mm metal pushbuttons, switches, pilot lights

**XB5**  
Ø 22 mm plastic pushbuttons, switches, pilot lights

**XB6**  
Ø 16 mm plastic pushbuttons, switches, pilot lights

**XB7**  
Ø 22-25 mm monolithic pushbuttons, switches, pilot lights

### Harmony Easy

#### XA2 ECO STRONG

# Wireless and batteryless Pushbuttons

## Harmony® XB5R

- Easy and fast installation
- Maintenance-free
- Robust design for industrial environments
- Eco-friendly green technology

### Only 1 transmitter per receiver

**Plastic head**

**XB5RFB01**

**Metal head**

**XB4RFB01**

- Transmitter with plastic or metal push button
- Non-programmable receiver, 1 relay output

### Up to 32 transmitters per receiver

**Plastic head**

**XB5RFA02**

**Metal head**

**XB4RFA02**

- Transmitter with plastic or metal push button
- Set of 10 push button caps
- Programmable receiver, 2 relay outputs

**Plastic head**

**XB5RMB03**

- Transmitter with plastic push button ZB5R in ergonomic enclosure
- Non-programmable receiver, 1 relay output

**Plastic head**

**XB5RMA04**

- Transmitter with plastic push button ZB5R in ergonomic enclosure
- Set of 10 push button caps
- Programmable receiver, 2 relay outputs

### Harmony® eXLhoist wireless remote control

8 pushbuttons (2 auxiliary) LEDs		<b>XARS8L12W</b> Simple auxiliary functions 12 output relays Wiring connections
8 pushbuttons (2 auxiliary) Display		<b>XARS8D18W</b> Simple auxiliary functions 18 output relays Wiring connections 18 digital inputs Dedicated safety functions
